Abstract not available for DE10028411
Abstract of correspondent: **WO0193677**

The invention relates to solid preparations containing a) a solid phase of at least one organic active ingredient compound, b) an organic water-dispersible carrier medium containing a water-immiscible organic solvent and a surface-active agent which is soluble therein, c) an aqueous carrier medium containing a fully water-soluble surface-active agent, and d) optionally, a dispersing agent for the solid phase in the organic carrier medium.
